FDR+

WORKFLOW INNOVATION

FDR+ ADVANCED SYSTEM

Acuity FDR+ x-ray system with a standard configuration of floor mounted tube stand, vertical bucky stand and bucky table. This system features an advanced, 10" user-friendly touchscreen that provides a seamless operation of your radiographic system. It displays graphical tube angulation, SID values, and tube to bucky auto sync. With a range of advanced safety workflow and positioning features, Acuity FDR+ is a high performance x-ray system offering unparalleled price-performance ratio.

10" Intuitive Touchscreen

Preset source to image distance with Auto Sync feature.

Real time display of SID and tube angulation.

Suitable for any clinical application.

AEC Optional

Premium Wall Stand

Motorized and counterbalance adjustment controls with electromagnetic locks.

Convenient handgrips to optimize patient positioning.

Overhead handgrips to promote proper upright exams.
