

FDPH <hybrid>

Fully Digital Hybrid Flatpanel Solutions

for Chiropractic, Veterinarian, & Private Practice offices

Taking digital radiography to the next level with our 17x17 Hybrid Flat panel technology is 2020 Imaging's cassette-sized FPH. Enjoy 3 unique operating configurations, including full wireless, wired power connection, and wired (fixed) power and data connections. Providing the most in versatility with exceptional image quality, and paired with advanced software features and functionality. The 17x17 hybrid panel uses enhanced Gadolinium technology and has many unique features such as device-drop notification emails.

The FPH is ideal for use with both new x-ray rooms as well as a retrofit solution. The versatile panel utilizes the Opal-RAD Acquire software for image capture, manipulation, and sending. 2020's acquire software offers useful tools to enhance the image acquisition process, thus keeping your office in the forefront of x-ray technology.
